GENTLEMEN:—On leaving Ottawa it was my intention to withdraw from politics, but since my return home, I have been daily receiving from every quarter of the country the most urgent solicitations to again become a Candidate to represent your District in the Federal Parliament. After mature consideration Politically I am in favor of giving a generous support to the present Canadian Administration, and should strongly advocate the national importance of the Railroad being terminated at Esquimalt. I shall urge the establishing of a Quarantine Hospital at onae, the openof an Immigration Agency at Victoria, the building of a Lighthouse at the entrance to, and the Dredging of Victoria Harbor, I should endeavor if necessary to obtain an increased guarantee for the Dry Dock, and should point out the benefit and importance of completing the Railroad from the facific to Lake Superior, (at least) in the shortest possible time.

The Federal Parliament. After mature consideration I have acceded to the request of my friends, and have now the honor once more to solicit your suffrages at the coming election. In doing so I would state that it is not my intention to canvass the district, or wait personally on the Electors. My having recently spent considerable time in canvassing his extensive district, and business engagements this season renders my doing so impossible. As the electors are well acquainted with my political views on the leading questions of the day, as well as my public acts in Parliament has season,—if they under those circumstances think fit to return me again as their representative, I pledge myself to use my best endeavors to promote the local and general interestrong the shortest possible time. Railroad from the facific to Lake Superior, (at least) in the shortest possible time.

From present information upon the subject it appears there is little prospect of both Houses being in Session this year at the same time, but should it prove otherwise and should I be elected to the Commons, I should feel in bonor bound, (although with great reluctance) to resign my present seat in the Local House and enable shother representative to take my place.

The New Mospital

The patients are to-day to commence re moving to the new hospital provided for them-the late Female Infirmary. The change for them will certainly, in most respects, be a very agreeable one; lofty rooms, a cheerful outlook, convenience and accommodation in every way. There are many ways in which the building has yet to be improved to make it a model hospital; but it is capable of being improved almost without The late alterations consist of the additio

of a new ward, 32x24 feet, and 13 feet high; a lavatory immediately adjoining, 11x8 feet, to accommodate five patients at a time; four closets, which can be reached without leaving the shelter of a roof; an additional bath room with wash basin; a china closet fitted with shelves and cupboards; a large wash room and a wood shed. The kitchen has been enlarged and fitted with sink and dress er; four large water barrels, two of which are new, have been placed in position to eatch the rain water. From them when filled, water is laid on to the two baths and the lavamittee has been expended further in complet-ing the fencing of the entire lot. A new dis-secting room will be found in the basement, and a well lighted dispensary on the verandah, and a well lighted dispensary on the verandah, fitted with shelving and every convenience.

When we add that some alterations were also made in the old building by shifting the places of some doors, (by their situation illadapted for the accommodation of patients in the single wards), we have, we think, said enough toentitle us to congratulate the public enthe judicious expenditure of the limited sum at the disposal of the Committee, which yet enables them to remove the patients from their old guarters. The alterations were under the onables them to remove the patients from their old quarters. The alterations were under the control of the Lands and Works Department; Mr. E. Further from the Olympia Tribune of Wed-

nesday : From Mr. Thorndyke, who returned this morning on the steamer from Seattle, we ob ain a thrilling account of the latest adventures of the Puget Sound pirates, Shepley. Brown, and a third man unknown. Thei appearance has given rise to considerable excitement, not unmingled with alarm, among people living in exposed positions on the Sound.

On Monday morning these men suddenly appeared at Port Madison, armed to the teeth They were on foot, having arrived at the place by land. Buldly entering Meigs & Gawley's store, they called for such goods as they wanted. When served with all they re-quired, they displayed their pistols in a threatening manner, stated their names and character, and, cautioning persons against following them, took their departure. The pitates were, however, tracked to a deserted cabin in Earle Harber, about the police will prevent violence.

Shortly after their arrival, Shepley issued from the cabin with a gun to take a walk, but had not gone far when he met one of the men on guard. Presenting his gun, the guard called upon Shepley to surrender, whereupon the latter instantly fired upon the guard, who returned the fire, neither shot taking effect. Shepley hen turned about to re-enter the cabin, when Primrose fired at him with a riffe, the ball from which is believed to have entered Shep ey's side. The pirate fell across the thresh hold, whence he was drawn inside by his companions and the door closed.
